SUMMARY

Data Scientist with 3+ years of experience solving diverse problems in marketing, retail, and finance using Machine Learning. Proficient in predictive modeling, geospatial analytics, optimization, statistics, and delivering production ready solutions.

SKILLS

Programming Languages: Python, SQL, R, Bash, Java, HTML

Data Wrangling: • **Python:** Pandas, NumPy, sklearn, geopandas • **SQL:** Redshift, MySQL, Athena, BigQuery, Presto, SQLite
• **R:** tidyverse • **Distributed Computing:** PySpark, Dask • **NoSQL:** MongoDB, Redis • **Misc.:** Excel, Regex

Storytelling: • **Dashboarding:** Tableau, Mode Analytics, Dash, Looker • **Plotting:** Matplotlib, Seaborn, Plotly, Folium, ggplot2

Technologies: AWS, GCP, Spark, PyTorch, Gurobi, Linux, Git, Google Analytics

Certifications: AWS Cloud Practitioner, Tableau Desktop Specialist, DeepLearning.AI Deep Learning Specialization

WORK EXPERIENCE

Meta **Fremont, CA**
Data Scientist, Analytics (via Alpha Net Consulting) Jan. 2024 – Current

- Applied geospatial analytics and advanced modeling techniques to analyze desk utilization and floor density, leveraging WiFi Access Point connections. Developed a **Tableau** dashboard to visualize floor plans and present density metrics.

Unison **San Francisco, CA**
Data Scientist Jul. 2022 – Dec. 2023

- Improved customer targeting (2x response rate) for direct mail and email marketing channels using effective feature engineering and **modeling** techniques in **PySpark**, saving \$2MM annually in CAC.
- Led the design and development of Unison's first proprietary AVM (home valuation model) using **geospatial analytics** and advanced **ensemble learning** techniques in **Python**, saving up to \$1MM+ annually.
- Increased accuracy in customer onboarding time estimated through **survival analysis** in **R**, improving company cashflow.
- Built a **web scraper** to monitor extreme weather alerts, facilitating proactive portfolio weather risk management.
- Developed a robust fraud detection pipeline in Python identifying users with multiple applications, reducing foreclosure risks.

Angel Flight West **San Francisco, CA**
Data Scientist (Practicum Project) Oct. 2021 – Jun. 2022

- Built and deployed a flight cancellation risk assessment model using boosted decision trees in **Azure ML**, increasing the annual flight count by 4%.
- Analyzed user drop-off in onboarding forms using **Google Analytics** and conducted **A/B tests** to increase form completions by 125%.
- Performed **ETL** jobs on 100M+ rows of flight data for ad-hoc analysis with **MySQL** and **Python**.

Impact Analytics **Bengaluru, India**
Data Scientist Aug. 2020 – Jun. 2021

- Developed inventory allocation and promotions optimization models in **Gurobi (Python)** for renowned retailers, including Tommy Hilfiger, Calvin Klein, and Puma.
- Received spot award for integrating heuristics with **MIP** models, resulting in a 10x reduction in runtime.
- Trained a **neural network (PyTorch)** targeting mobile phones to identify image quality issues such as blur and tilt.
- Ensured the reliable operation of **Flask (Python)** APIs serving a global clientele of 1000+ users, achieving a 99.9% SLA.
- Developed a coupon booklet optimizer and **recommender system** for a Fortune 500 warehouse club chain.

PROJECTS

- First-author of **Solving Twisty Puzzles using Reinforcement Learning** ([Paper](#) and [open-source Python library](#))
- DotA 2 Icon GAN:** Generated new images for character skill icons for the video game Dota 2 using GANs in PyTorch.
- Analyzing Online Conversations of the Russian Ukraine Conflict:** Used RoBERTa models to analyze sentiment on various hashtags and topics and find their correlation with real-world events.
- Contributor to **D2ACQ (open-source online quiz)**: Fixed bugs in the web scraping code and CSS.

EDUCATION

University of California, Davis **San Francisco, CA**
Master of Science, Business Analytics Jun. 2022

- Granted an MSBA Fellowship, Beta Gamma Sigma Member (Top 20% of the school)

Manipal Institute of Technology **Manipal, India**
Bachelor of Technology, Major in Computer Engineering, Minor in Big Data Aug. 2020
